

BALAJI ARULKUMAR

Frontend React Developer

📞 9677932264 | @ balajiarul158@gmail.com | 📍 Chennai, Tamil Nadu | 🌐 balaji-a.netlify.app

SUMMARY

Frontend React Developer with **2+ years** of combined professional and independent development experience building production web applications using **React.js**, **TypeScript**, and **Astro**. Experienced in reusable UI components, **GraphQL** and **REST API** integration, and business workflows for ERP, agricultural technology, and client websites. Delivered independent websites and contributed to live products in collaboration with backend developers.

TECHNICAL SKILLS

Languages	: HTML5, CSS3, TypeScript, JavaScript
Frameworks & Libraries	: React.js, Astro, Tailwind CSS
State Management	: Redux Toolkit, Zustand, Context API
API Integration	: GraphQL, REST APIs
Forms & Validation	: TanStack Form, React Hook Form, Zod
Design & Version Control	: Figma, Git, GitHub, GitLab

EXPERIENCE

Independent Frontend Developer

Independent Projects

📅 January 2026 – September 2026 📍 Remote

- Independently developed and delivered responsive websites using **Astro**, **TypeScript**, and **Tailwind CSS**, creating **reusable UI components** for client requirements.
- Implemented frontend features for an existing ERP application using **React.js** and **TypeScript**, including **leave management workflows**, **REST API integration**, and **form validation**.

Associate Software Engineer

OX Softwares Private Limited

📅 May 2024 – December 2025 📍 Palani, Tamil Nadu

- Developed frontend features using **React.js** and **TypeScript**, building **reusable components** and customizing UI libraries for forms, data tables, dashboards, and business workflows.
- Integrated **GraphQL queries and mutations** using **Apollo Client** and **REST APIs** to support CRUD operations, handling asynchronous data states and managing shared state with Zustand and Context API.
- Collaborated with team members to understand **business requirements**, plan frontend implementations, and deliver features in coordination with backend developers.
- Diagnosed and resolved **production issues** involving responsive layouts, API data handling, form validation, component rendering, and frontend performance.

PROJECTS

AsherGo – Malaysian ERP System

📅 July 2026 – September 2026

🌐 <https://ashergo.com>

Contributed to an existing ERP application for Ria Kistana, Malaysia, by implementing the Leave Management module, including leave application forms, leave listings, approval workflows, and REST API integration.

Tools Used: React.js, TypeScript, Tailwind CSS, REST APIs, Zod

Murugu Tamil Payilagam – Educational Institute Website

📅 May 2026 – June 2026

🌐 <https://murugutamilpayilagam.com/>

Independently developed a responsive website for a Tamil educational institute, presenting coaching programs, course information, and enrollment details.

Tools Used: Astro, TypeScript, Tailwind CSS

Hashvith Naturals — Agricultural Products Website

📅 January 2026 – April 2026

🔗 <https://hashvithnaturals.com/>

Independently developed a responsive website for a natural agricultural products brand, showcasing products and business information through reusable UI components.

Tools Used: Astro, TypeScript, Tailwind CSS

OX BEMA

📅 February 2025 – December 2025

🔗 <https://app.oxbema.com>

Comprehensive employee management system designed to streamline and simplify the management of employee details, including personal information, leave, project assignments, team and recruitment management.

Tools Used: React.js, TypeScript, JavaScript, HTML5, Tailwind CSS, Context API, Redux Toolkit, GraphQL, Apollo Client

OX AGRY

📅 May 2024 – February 2025

🔗 <https://www.oxagry.com>

Dynamic and innovative platform dedicated to providing cutting-edge agricultural solutions. Our mission is to empower farmers and agricultural businesses with the latest technology and insights to enhance productivity, sustainability and profitability.

Tools Used: React.js, TypeScript, JavaScript, HTML5, Tailwind CSS, Context API, Zustand, GraphQL, Apollo Client, Google Maps, PayU, Cashfree

CERTIFICATIONS

Claude 101 — Anthropic Academy | Aug 2026

Fundamentals of Claude, large language models, and practical AI workflows.

EDUCATION

B.Sc. Computer Science

Bharathiar University

📅 2021 – 2024

📍 Coimbatore, Tamil Nadu

CGPA
7.9 / 10
